Dojin Works

It's not easy drawing Dojin manga to make money on the side, and that's exactly what Najimi is learning... and she's not alone. There are literally thousands of artists trying to make a buck, and many of them suck just as bad as Najimi. Enter Kaneru - a rival artist who's deluded enough to think she's better than Najimi... unfortunately she's awful too. They have to find a way to bring attention to their books... but what could possibly draw the Otaku in?
